Lean Digital Mindset
- Special AWARD:
Rapid Transformation

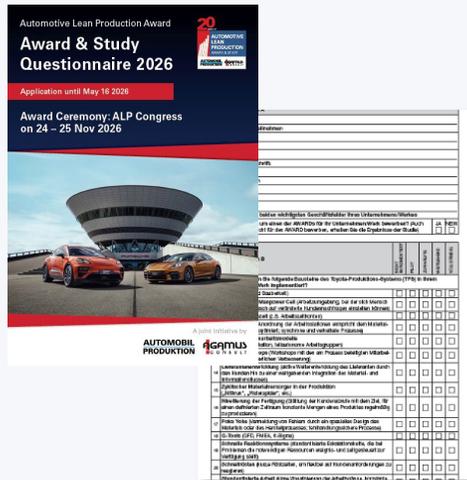

The Automotive Lean Production initiative involves three phases

Procedure of the Automotive Lean Production Initiative - Award & Study

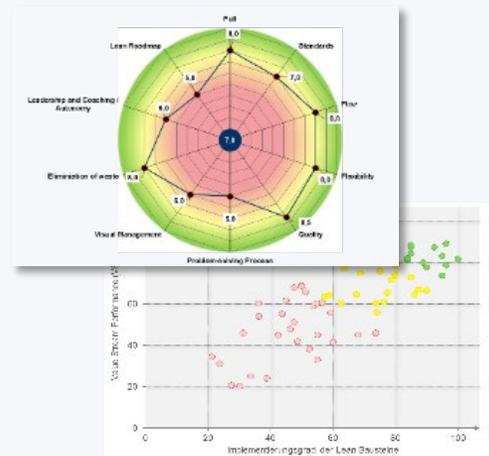

1. Data acquisition

Data is collected via a structured questionnaire to be completed by the production managers.

2. On-site evaluation

The Agamus team of experts visits the nominated companies to get an additional reliable picture of the implementation on site.

3. Award ceremony

The leanest participants will be presented with the Lean Award at the Automotive Lean Production Congress.

WE

MAKE DREAMS

COME TRUE.

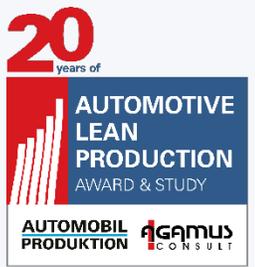

AUTOMOTIVE LEAN PRODUCTION CONGRESS

24–25 Nov 2026

At the Porsche Experience Center
and Porsche factory in Leipzig.

Your benefits as a Sponsor of the ALP Congress

Maximum Visibility

- Presentation of your company at the centre of a high-profile industry event
- Logo presence on event media, website and communication channels
- Visibility to a broad target group from industry, operations and lean management from all over Europe

Direct Exchange

- Exchange on equal terms with executives from production, plant management and management
- Opportunity to initiate discussions for new projects or collaborations directly on site
- Open atmosphere, presentation of your solutions, products and innovations, defined breaks and exhibitor areas that facilitate intensive technical discussions and networking

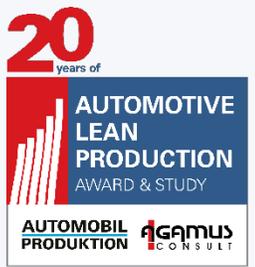

Presentation of your solutions

- Presentation of your technologies, methods and best practices in a personal meeting, round table discussion or specialist lecture -> Opportunity for a live demonstration
- Positioning as a solution provider for lean, efficiency improvement and transformation
- Strengthen your brand through presence in a professional exchange environment

High-quality industry environment

- Become part of an established community of leading companies in the industry
- In-depth, technical discussions thanks to the event's thematic focus
- Valuable repeat contacts thanks to a long-standing, steadily growing conference community -> Industry environment that promotes long-term relationships and sustainable partnerships

About the Organisers

Agamus Consult

We are an international management consultancy specialising in lean and supply chain management. We work with our clients to develop and implement the best and most sustainable solutions. We impress with our in-depth expertise in processes and digitalisation, our quick understanding of our clients' specific requirements and our interpersonal skills. With our initiatives “Automotive Lean Production - Award & Study” and forum for the digitalised industry “smart applications”, we offer knowledge-based and action-oriented consulting, driven by our motto “LET'S CREATE VALUES FASTER TOGETHER”.

Automobil Produktion

For more than three decades, AUTOMOBIL PRODUKTION has been the trade magazine for the automotive and automotive supply industry, which is undergoing the greatest transformation in its history in Germany and worldwide. This transformation is also affecting the factories of manufacturers and suppliers. The industry is being forced to drive forward a fundamental change in production and logistics. This is a development that will closely accompany automotive production in the future. That is why Automobil Produktion wants to strengthen the magazine's brand essence with topics related to the intelligent, flexible manufacturing of the future. The integration of intelligent machines and systems plays an important role in changes in purchasing and supplier management. In this context, the trade journal Automobil Produktion stands for diligence and accuracy, for straightforward and clear journalism.
